SMARTTEAM - Multi-CAD Integration (MCI)

SMARTTEAM V5R18

User Roles

SMARTTEAM - Multi-CAD Integration

To bring rich, seamlessly integrated PDM functionality to CAD users through intuitive access to SmarTeam menus, from within the familiar CAD environment. The SmarTeam Multi-CAD Integration (MCI) creates the conditions necessary for common collaboration among mixed-CAD engineering teams by offering CAD users one SmarTeam license for deploying several CAD integrations on one workstation.

Product overview

SmarTeam Multi-CAD Integration (MCI) is a new licensing package which simplifies licensing management. MCI offers administrators the advantage of maintaining a single flexible license which is applicable for any of several different CAD integrations (SEI, SWI, AC and INI).

Product Highlights

SmarTeam Multi-CAD Integration (MCI) is a new package that enables users to purchase one license for working with SmarTeam AC Integration (ACI), SmarTeam IN Integration (INI), SmarTeam SE Integration (SEI) and SmarTeam SolidWorks Integration (SWI) on the. SmarTeam Multi-CAD Integration creates the conditions necessary for collaboration among mixed-CAD engineering teams, while seamlessly integrating PDM functionality directly within the native CAD environment.
